COMMUNITY SERVICE ROADMAP OF FACULTY OF PHARMACY

UGM FOR THE PERIOD OF 2022 - 2027

By

Community Service Unit, Faculty of Pharmacy UGM

The Faculty of Pharmacy UGM has a vision to become a pioneer of pharmacy higher education that excels at the national and international levels, serving the interests of the nation and humanity imbued with Pancasila.

Mission of Faculty of Pharmacy UGM is: **(Adapted to the Latest Vision and Mission)**

- 1) Organizing pharmaceutical higher education that is superior, innovative, and gaining national and international recognition.
- 2) Carrying out education, research, and community service that is committed to the problems of the nation and humanity imbued with Pancasila.

The objectives of the Faculty of Pharmacy UGM are: **(Adapted to the Latest Vision and Mission)**

- 1) Realizing Higher Education in Pharmacy, Research and Community Service in the field of pharmacy that is Superior and Innovative.
- 2) Developing sustainable supporting facilities.

The Community Service Unit of the Faculty of Pharmacy UGM has prepared a community service road map for 2022-2027 by involving stakeholders and the academic community. It is intended to be able to use the approach and thinking of the actual follows the speed of change dynamics problems and information flows in the community. Community service activities at UGM Pharmacy are community service activities which are a form of tridharma activities to solve problems in the community. Activities Community service is not limited to Activities that compiled by Unit Community Service in structured and incidental but also includes activities community service organized independently by lecturers.

In terms of compiling a community service roadmap, it is necessary to consider the SWOT analysis at the Faculty of Pharmacy UGM. The results of the SWOT analysis can be presented as follows:

SWOT	
strength	weakness
<ol style="list-style-type: none">1. Pharmaceutical Science is a science that is still needed by the wider community.2. The number of lecturers at the Faculty of Pharmacy is quite large with various concentrations of knowledge, so that they can become implementers of community activities.	<ol style="list-style-type: none">1. The busyness of lecturers and students in teaching and learning activities and practicums, so that community service activities are not carried out evenly by lecturers and students.2. Alumni of the Faculty of Pharmacy have not been optimally organized

<ol style="list-style-type: none"> 3. The Faculty of Pharmacy has a clearly integrated community service organizational structure. 4. There is a structured student organization in the Faculty of Pharmacy that has routine activities to provide health counseling through PIOGAMA, Clinic, and Jathropa. 5. The Faculty of Pharmacy has quality research centers such as HTA, CCRC, CRC, and others. 6. The Faculty of Pharmacy has digital information media through the Pharmacy Knowledge Channel and the Faculty of Pharmacy website as a means of disseminating community service and education programs. 7. The collaboration of the Faculty of Pharmacy with Taman Pintar, Radio Swaragama, and the assisted villages can help the implementation of Community Service activities. 8. Many research results and academic innovations from lecturers and students can be applied to the community. 9. Funds for research activities are offered both by faculties, universities, the Ministry of Research, Technology and Higher Education and grants from other institutions. 	<p>in supporting community service activities.</p> <ol style="list-style-type: none"> 3. Not all lecturers have the ability to convey counseling materials or research results in a language that is acceptable to the general public 4. The implementation of research activities in community service activities is not optimal 5. The organization of community service activities, especially in disaster response efforts, has not been optimal.
opportunities	Threats
<ol style="list-style-type: none"> 1. There are quite a lot of requests from the community, both government agencies and private agencies to receive community service activities from the Faculty of Pharmacy. 2. Many agencies offer cooperation that can be used in community service activities, for example: Taman Pintar, Radio Swaragama, etc. 3. There are many grants for community service activities from Higher Education (MBKM) or UGM through integrated programs with KKN-thematic and non-KKN for the development of assisted villages. 4. There is financial support for collaborative activities with other 	<ol style="list-style-type: none"> 1. The culture of the community is not yet independent so that after the community service activities are completed, there is no community initiative to continue it. 2. With the advancement of information technology, hoaxes are easier to spread and increase the challenge of providing correct education. 3. The literacy ability of the community is still weak towards health information.

<p>disciplines that support community service activities of the Faculty of Pharmacy.</p> <p>5. There are quite a lot of community service media available, both in the form of mass media newspapers, magazines, radio broadcasts, websites and direct contact meetings with the community.</p>
